Faith has been asking all year to design shirts! She loves having the chance to design! Faith loves to be creative and would love to make some shirts that involve FFA and spirit gear to support our school! EMPLOYEE SPOTLIGHT

Each month Firelands Outtfitters will focus on an employee, Payten Metcalf is the one who stood out this month! Firelands Outtfitters appreciates hard workers, which is why we do an employee spotlight each month. This month's employee spotlight goes to Payten Metcalf.

Payten shared her favorite part of Firelands Outtfitters is learning how to run a business. She also has enjoyed learning how to make Firelands apparel and Firelands gear. Payten says she enjoys weeding as well. She describes this opportunity as amazing and cool. Her current role is quality control check and inventory and distribution coordinator. She is very thorough with checking and logging the inventory into our system. When she does a quality control check she ensures your orders are ready for delivery! She hopes to be part of this program next year as well!

TERMINOLOGY 101

Our "Transitions" class here at FHS has been very busy this last month! All of our orders would be very difficult to fulfill without this months tools.

Here at Firelands High school we have a class called "Transitions".

It is a class where students create spirit wear to sell to the community. Last week we got our new heat press which was donated from Main Street Threads in Vermilion, Ohio. The name of this new heat press is GY-06 Digital Controller. It works like a normal heat press but we don't have to start a timer and it automatically lifts up once the timer goes off. The main purpose of this heat press is to press vinyl to our shirts.

We appreciate the donation of the heat press and it allows us to continue our business.

THANK YOU

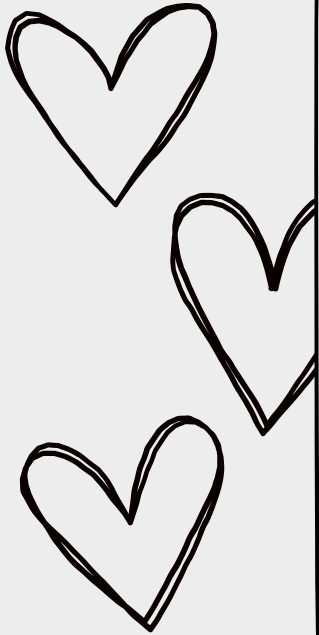

Our small business wouldn't be where it is today if it wasn't for the following groups.

Jaqui Adkins, who is a Firelands Alumni and owner of Mistakes on the Lake and Main Street Threads donated a heat press, clothes rack, cups, and shirts. She stands behind this program and continues to offer support and guidance whenever asked!

Mrs. Dziat, thank you for helping with behind the scenes tasks-like depositing money, taking phone calls, etc. We really couldn't do this without you!

Student Council, thank you for asking us to make the student vs. faculty shirts for the basketball game. We love partnering with you on projects!

FUTURE CONNECTIONS

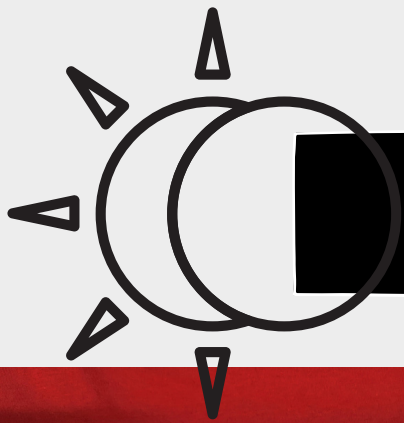

We, Firelands Outfitters, are selling chocolate bars to go to Cedar Point as a class for a fun field trip to give our students a reward for working so hard in class. We started a fundraiser for this trip to even be possible for our students to have this relaxing fun day. The money that we make selling the chocolate bars will be put towards this trip so all of our kids can go and be provided with food passes to be able to eat within the day.

In addition to the Chocolate fundraiser, this month, we are going to see Cleveland State University as another learning experience. We, Firelands Outfitters, are going to Cleveland State University to look at offers as they have many wide range of academic programs and resources that can provide students valuable learning experience. We are going to have lunch at Cleveland State University and we are going to be discussing and touring with them about future opportunities for our students. Visiting CSU is helpful because we have some juniors and seniors that are looking to further their education. CSU could be an opportunity after they graduate.
